

Summary of qualitative data received from the final comment in the individual feedback form, and other emails and letters received by Bishop Paul and his staff

Of the 736 people who responded using the individual feedback form 554 chose to comment when asked “Do you have any additional comments? Are there any ideas you want to share? Are there any particular challenges in your region that the Bishop should know about? Do you have any further questions?” In addition, 78 people chose to write a letter or email to Bishop Paul or his staff to express their opinion of his proposed plan.

There was a significant amount of material in these responses and they varied widely in nature. For ease of understanding the data has been grouped into “Positive Comments”, “Concerns” and “Alternative Suggestions”. Below is a summary of the frequently mentioned themes. Please note that percentages are calculated from the sub-sample n=632*. Comments made by less than 1.5% of the population sub-sample have been grouped together in the “other” category.

*Sub-sample based on those respondents who provided a valid comment in the feedback form and those who wrote letters and emails. Percentages do not sum to 100% because each comment could relate to multiple themes.
